

III Link in the IRIS National Fair Pagetitled I Mentoring Camp for Team India

The Initiative for Research and innovation in Science (IRIS) Coaching Camp 1 was held at Mapple Emerald, New Delhi on 16 & 17 December 2017. The coaching camp was facilitated by members of the IRIS Scientific Review Committee (SRC) and attended by IRIS 2017 grand award winners in preparation for their participation in the Intel International Science and Engineering Fair (ISEF) 2018.

A total of 20 teams attended the camp.

IRIS Project Development Session

Each of the participant was given time to discuss their project with the SRC and garner inputs for improvement. They were then given the opportunity to showcase their innovation to the entire group in order to receive individual feedback and suggestions on their projects.

Instructions on ISEF Subject Categories& Guidelines

Handouts of ISEF Subject Categories and Guidelines were made available to the participants and they were given time to consider the ISEF subject category that their project would best fit into. They were also instructed to follow the ISEF rules in order to ensure that their project timelines and research practices met with the ISEF specifications. The teams were also instructed to get all certifications and paperwork in order as per ISEF guidelines, in case there was any ethical animal or human testing involved.

Special SRC Mentor

Each participant was assigned a special SRC Mentor as the go to guide for their project, and instructed to work on project improvement as per their suggestions.

Instructions regards Passport & US Visa

Participants were given instructions on getting their Passports issued as soon as possible and also on how to go about the process of applying for a US visa. They were also told to re-apply for a Passport in case the validity at the time of travel to USA was less than 6 months.
